Bad Farming.

It is admitted by all that the tobacco situation is distressing to the growers both in and out of the pool. After looking over the Burley district one can readily see that far too much tobacco has been raised to the exclusion of other crops that would be soil producers and money makers. The price fighter who reaches too far to make a blot on one side exposes his person on the other side to the enemy. The farmer has reached out so far after tobacco that he has exposed his family not only to ignorance by staying out of school, but he has neglected to raise the food products that make up the necessities of life, therefore he is compelled to spend his tobacco money when he gets it to pay for food that he could have raised. His land which was in blue grass and clover is now on its way to the Mississippi valley on account of being plowed up and allowed to wash away. A reasonable crop of tobacco may be raised with profit. The thickets may be cleaned up and put in tobacco which will occupy the odd time of the farmer but in no case should a farmer put so much tobacco that he will not have time to raise corn, vegetables, cut hay and keep up the improvements necessary on the farm. All tobacco and no hog and hominy is bad farming—Orvinton Democrat.

Throws Up The Sponge.

Chairman Kyle informed the Herald Tuesday that he was whipped from the crown of his head to the sole of his feet, and was so tired from the fight that now he felt like the "stuffed" had been everlastingly knocked out of him. He says that the "Old Guard," who put up their good time, who fought and worked themselves nearly to death to make the pool a go, have been lambasted to a frazzle and will never be able to "come back" that from now, henceforth and forever, so far as he is concerned, he will be a damper of the first magnitude, that the trust had a fine scheme, sending out thousands of agents through the Burley district to buy the 1910 crop, paying 12 and 12 cents for tobacco they had never seen, and thus making the effort of the pool people very difficult. Mr. Kyle says that growers are all right on the 1910 crop, and all of it will bring 10 or 12 cents, or trust will be based on court on the worst case discrimination ever known in the history of the world. As to the 1909 pool of tobacco, Mr. Kyle says it is a complete knockout, and farmers will only realize from 5 to 7 cents a pound for it. In our opinion the collapse of the pool is the worst blow that has been "handed out" to the farmers in years, and it won't be more than two years before they will realize it and begin crying for another pool, but the Old Guard is too tired with his fight to ever come to their rescue and put up another one.—Harrodsburg Herald.

DAVID B. HILL

Former Senator and Governor of New York Has Passed Away.

Albany, N. Y., Oct. 20.—David B. Hill, Ex-United States Senator and former Governor of New York, died suddenly today at Wolfert's Roost, his country home.

About two weeks ago Mr. Hill was seized with a bilious attack while at his law office in this city and although his condition was not considered serious at the time, his physician advised him to remain at home until he recovered. A cold developed and a few days later alarming reports of his condition were circulated. These reports however were denied by friends. In fact, the patient appeared to be improving until last night, when he suffered a sinking spell, which resulted in his death.

David Bennett Hill had been out of active political life for some years, having been in bad health for a long time. He was sixty-seven years of age, and was born in Havana, New York, in 1843. He was admitted to the bar in New York State in 1864, and from 1868 to 1880 was a delegate to the State Democratic conventions, being chairman of the conventions in 1877 and 1881.

He was a delegate to the National Democratic conventions of 76, '84, '96 and 1900, seconding the nomination of William Jennings Bryan for the Presidency in 1900.

He was a member of the New York General Assembly in 1873 and 1875, was Lieutenant Governor of New York from 1882 to 1885, and was Governor of New York from 1885 to 1891. In 1891 he went to the United States Senate, where he served one term, during which he was one of the enemies of Grover Cleveland.

He was one of the prominent candidates for the Presidential nomination in 1892, and was defeated for Governor of New York in 1894.

In 1904 Mr. Hill was credited with being the political sponsor of Alton B. Parker, who was nominated for the Presidency by the Democratic national convention at St. Louis. Following that election, Mr. Hill announced his permanent retirement from politics and since that time he had devoted himself solely to the practice of his profession.

Capt. Bogardus again hits the Bull's Eye
This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy vision. On arising on the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 percent better. I am never bothered with my kidneys or bladder and again feel like my own self." Haydon & Robertson.

Bad Accident.

Tuesday about noon Mrs. J. B. Botts, a visitor here from Owensboro, met with a very painful accident. She was stepping from the door of the post office when she slipped and dislocated her knee. She was taken to the office of Dr. M. L. Forsythe where the needed medical attention was given, and after that

she was removed to the home of her parents, Mr. and Mrs. S. R. Gray, whom she has been visiting. The dislocation was a remedy of an old hurt received in a runaway accident before Mrs. Botts was married.—Harrodsburg Herald.

Automobile destroyed by Fire
Fire alarm was sounded from the residence of Mr. Geo. O. Bassett last Thursday afternoon about 5:30 and a large crowd of boys immediately started to the scene. On the way they learned that Mr. Bassett's automobile house was on fire, the machine being in the building. By the time assistance reached the location the fire was in such headway it could not be extinguished, and the building and automobile were soon in ashes. Mr. Bassett had just arrived from Campbellsville in the machine, and it had not been in the house more than thirty minutes until the fire was discovered. It is believed that gasoline sprang a leak which started the blaze.—Adair County News.

Life In Breathitt Is To Uncertain.
Lexington, Ky., Oct. 20.—Since the assassination of Dr. Diller Mait Crawford, at Jackson early Wednesday morning, citizens there are becoming uneasy for their safety and some are planning to leave.

Sam Jett, a Winchester capitalist, immediately upon hearing of the assassination, wired his agent at Jackson to dispose of all of his holdings in Breathitt county. Mr. Jett owns a distillery, general merchandise store and goat ranch near Oak Grove, Breathitt county, and is interested in other enterprises there.

He says he does not propose to do business and live in an area where life is so uncertain as in Breathitt.

A BRIEF SKETCH

Of the Life and Labors of the Rev. Jesse Smith Robinson

That the career of the Rev. Jesse Smith Robinson was a somewhat eventful one, the following brief sketch of his life will serve to show. The article was written by Prof. Winfield Scott Colvin under the direction of Rev. Robinson himself, several years prior to his death and reproduced it as it was written at the time. Since it was written however time has wrought some changes which if the article was being written today, would cause it to be different in some of its parts. William F. Burns and Mary A. Gibson have since died, and the subject of the sketch too has passed to the Great Beyond.

The subject of this sketch, Jesse Smith Robinson, was born in Garard County, Kentucky the 25th day of May, 1828. He was the son of James Robinson, of that county, and his mother was a daughter of Henry and Elizabeth Smith, of the same county. His grandfather, Henry Smith, was a Revolutionary soldier.

The mother of the subject of our sketch died when he was about two years old and at her death he went to live with his grandmother Smith while he continued to reside until he was able to care for himself.

In October 1845, then a little more than seventeen years old, he attended a meeting in the Old Stone church at the corner of Dicks River conducted by Elder Burdette Kemper, pastor of that church, and under the ministrations of this most excellent man he was converted and baptized and became a member of that church. Soon after his conversion he began to assist in prayer meetings and also took part in the regular meeting which he attended.

In 1822 he removed from Garard county to Boyle County, Ky. uniting with the church at Danville, by letter. He was a member of this church about one year, and a teacher in the Sunday School while he remained there. From Boyle county he removed to the eastern part of Washington county in 1838 and became a member of Sugar Grove church in Mercer County, Ky. of which church Elder David Bruner was then pastor.

In December of 1853 he was married to Miss Elizabeth Duggins, daughter of Daniel and Sally Duggins, and they began housekeeping on Three Lick Creek in Washington county. In 1856 he and his wife became charter members of Mt. Zion church which was constituted at Bailey's Chapel. He was chosen Moderator of this church and Elder Hamilton Gritton pastor.

In September 1857 his beloved wife with whom he had lived for three years and nine months was called to her home on high, and only two weeks later his baby boy, Hamilton, was also taken from him leaving him with an only son, George W., then a boy of three years. This son is still living and an influential member of the Baptist church, and a leader in Sunday School work.

On the 17th day of March 1859 he was united in marriage with Mrs. Jane Burns, the widow of J. L. Burns, deceased and the daughter of Jacob M. Durr. She was the mother of two children, (boys) the younger of whom was dead and the older, William F. Burns, still living and a member of the Baptist church. After his second marriage he moved to the neighborhood of Mt. Olivet church, (a new Tatham Springs) and he and his wife became members of this church, he was chosen its Moderator. Bethel church called for his ordination and on the 9th of July, 1864 Mt. Olivet church called a council of Ordination, consisting of Elders H. H. Prather, J. M. Chesser and E. G. Shirley and on that day he was fully set apart for the full work of the gospel ministry. He was now called to the pastorate of Bethel church and also Mt. Zion church. Later he was for a number of years pastor of

Falls From Roof.
On Wednesday Mr. John Williams while engaged in painting the roof of a portion of the Lancaster Distillery, near town, endeavoring to reach the bucket of paint which was slipping from the roof, fell to the ground a distance of twenty feet. He was at once brought to the office of Dr. Arch C. B. in Bardonia, who upon examination found the patient beyond sustaining further serious injuries, but miraculously escaped further injury. Mr. Williams is of course confined to bed, but at this time comparatively comfortable and it is hoped may soon recover from all ill effects of his experience.—Harrodsburg Standard.

A Generous and Charitable Will.

Crippen Guilty and Sentenced to Death.
London, Oct. 22.—Dr. Hawley Crippen, the American practitioner and medical agent, was today found guilty of the murder of his wife, the American actress, Belle Elmore, and sentenced to death. He will be hanged November 13.

The jury was out just thirty minutes. When it returned and announced that it had found the defendant guilty, Lord Chief Justice Alverstone asked the physician if he had anything to say. Crippen replied in a few words: "I still protest my innocence."

The chief justice then dropped the black cap that has rested on him throughout the trial and pronounced the sentence of death.

Addressing the condemned man, Lord Alverstone said: "You have been convicted on evidence which can leave no doubt in the mind of any reasonable man that you cruelly murdered your wife and then mutilated her body."

"I advise you to entertain no hope that you will escape the consequences of your crime. In place you to make your peace with Almighty God."

As the Lord Chief Justice concluded a policeman stepped forward, and in the hush that had fallen over the courtroom led Crippen from the dock.

Not One Democrat in
Ohio County for Dr. Gaddie

The following letter addressed
to Rogers Gore is self-explanatory:

Hartford, Ky., Oct., 22, 1910.
Hon. Rogers Gore, Louisville, Ky., Dear Sir: My attention has been called to an article in the Louisville Herald of October 18, in which it is said that W. B. Rander, a prominent Democrat of this place pledged his support to Dr. Gaddie, the Republican nominee for Congress. I desire to state that Mr. W. B. Rander is known here to be an uncompromising Republican. If he has failed to support a single Republican nominee in the last ten years I have never heard of it. In fact he has not affiliated with the Democratic party since 1896. The reference to him as a Democrat is treated here by Republicans and Democrats as a joke. Of the three thousand Democrats in Ohio County I have been unable to find a single one who will vote for Dr. Gaddie, but I have found a number of Republicans who will vote for Mr. Johnson on November 8.

Public Sale OF LAND On Tuesday, November 1, 1910, At 2 o'clock, p.m.,

I will offer for sale at public outcry my farm of 240 acres, known as the Plover farm, about one mile Northwest of Bloomfield with an outlet on the Fairfield and Bloomfield turnpike road and about 1-2 mile from Bloomfield on Bloomfield and Simpson's Creek pike.

This farm is all good bluegrass land, which means it will grow corn, wheat, rye, tobacco and in fact almost anything that grows in this latitude to perfection. More than half the farm is now in grass, it has on it one 6 room dwelling, 3 room tenant house, good tobacco barn 45x50 feet and plenty of water.

We will first offer this farm in two separate tracts and then as a whole, so as to give the man who wants a small farm a chance, but their bids will be rejected if there is an advance made when offered as a whole. Sale to be at the residence.

Terms will be made known on day of sale

I shall take pleasure in showing anyone wishing to purchase over the farm.

Moore's Air-Tight Heater

Does the Work of a Furnace!

It's by far the greatest heater on earth! Built on an entirely different principle than others. Heats by circulation instead of radiation. One Moore's Air Tight Heater will heat your entire house—up stairs and down—and keep every floor as warm as though you had a furnace. It heats the air in the farthest room to the same temperature as the air in the same room as the stove.

Saves Over Half Your Coal Bill!

Moore's Air Tight Heater burns hard coal or the cheapest kind of slack, and can be run at less than half the cost of other heaters. The Egg Shaped Dome and Hot Air Flow Fireproof consumes all the carbon in the coal, thus overcoming the smoke and soot nuisance as well as making the fuel last longer. There are no clinkers and no cinders.

The Dust Flue takes all the dust and small ashes up the chimney, thus preventing them from collecting on the floor and furniture. The Ashpan Apron keeps all ashes from falling on the floor when removing pan.

All parts are surface ground and fit together air tight. Nothing but asbestos wicking is used in mounting. It expands and contracts with the heat, so that the stove is perfectly air tight and under complete control at all times.

Stop in and let us show you the secret of our Open Flame Heating and many other features we haven't room here to explain. Let us prove to you that one of these heaters will replace two or even three others and do better work than all combined.

The Handsomest and Handiest Heater Ever Made!

All niched parts are of the very highest finish, through a process known only to the House of Moore. None of the polished parts come in direct contact with the fire. The polished parts burn off. One polishing keeps the stove like new for a whole year. The Air Tight Draft Control enables you to hold a fire from 24 to 48 hours. Fire never goes out over night, and is always under perfect control.

Get it at Last.

It is told of a distinguished professional of history that in an address before a woman's club on "Ourselves of the French Revolution," he had reached the point where one of them, only relieved to essay the rescue of a friend doomed to the guillotine, sought a parting interview with his sweetheart before making the almost hopeless attempt. The professor had a moving voice and was eloquent. The assembly of women, many of them already near tears, hung breathless upon his words.

"Biddy, biddy," said he pathetically; then coughed slightly and went back.

"Biddy biddy." Something was evidently amiss. He tried again.

"Biddy biddy biddy doo."

By this time the ladies looked puzzled and the orator desperate. Drawing a long breath and speaking with painful deliberation, he at length conquered the elusive syllable and said: "Did he bid adieu?"—YOUTH'S Companion.

Unconscious Humor.

Mark Twain, as an example of unconscious humor, said to a Hartford woman who said, one day to him: "Jim, I said to this morning, 'are you very hard up just now?'"

"I certainly am hard up," he replied soberly. "This 'high cost of living' is terrible. I don't know what I'm going to do."

—The dear fellow's face changed, and he said:

"Indeed, then, you won't darling. I thought you wanted to buy a hat with an egret or some such foolishness. No, no, my darling; Jim can always find the money to let his dear wife go to the country."—Washington Star.
